ABOUT

My name is Jack Gilliland. I have just Graduated from the University for the Creative Arts in Maidstone and I am looking for a job. I love design and illustration and if I'm not doing it, I'm looking at it. I'm always on the look out for new and creative ways I can approach design. I have a strong passion for both design and illustration and I enjoy incorporating my illustration skills into my design work where I can. I am happy working with a hands-on traditional approach, or digitally. I really love to challenge myself and always keen to learn new skills, exploring new areas of design and pushing my work to new places and building on the knowledge I have.
